## INFORMED CONSENT

I consent to acupuncture treatments and related procedures, associated with Oriental Medicine, by Laura Perry, L.Ac. I have discussed the nature and purpose of my treatment with her and I understand that the methods of treatment may include but are not limited to acupuncture, moxibustion, cupping, gua sha and electrical stimulation.

I have been informed that acupuncture is a safe method of treatment, but that it may have side effects including bruising, numbness or tingling near the needle sight, which may last a few days. An unusual risk of acupuncture includes spontaneous miscarriage, nerve damage and organ puncture. Infection is another possible risk, however since this office uses only sterilized, disposable needles while maintaining a clean and safe environment, this is unlikely. Burns and scarring are potential risks of using moxibustion.

I understand that the practitioner and administrative staff may review my medical records and reports, but all of my records will be kept confidential and will not be released without my written consent.

I will notify the acupuncturist, who is caring for me, if I become pregnant.

By voluntarily signing below, I show that I have read or have had read to me, this consent to treatment. I have been told about the risks and benefits of acupuncture and other procedures and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for both the present condition and for any future conditions for which I seek treatment(s).
